EDUCATION

Full Stack Development Bootcamp certification
University of Business Excellence
Feb 2021 - Mar 2021

- Consumed RESTful APIs and handled HTTP requests and responses.
- Implemented basic authentication and authorization mechanisms.
- Managed client–server communication using JSON.

Bachelor of Science, Computer Engineering
Ajman university
Sep 2016 - Aug 2020

- AI project (2019/2020)
  Intelligent recommendation system for course Learning outcome:
  A desktop-based program that well recommends an action to implement to improve the student performance-based on their CLO scores at the course
- Game project using unity engine (2019/2020)
  The maze: A desktop-based game as a maze setting basic expected interface for normal users

FATIMA ALZAHRAA KOUKA

UI/UX DESIGNER

UX/UI Designer with 4+ years of experience designing responsive web and mobile applications, primarily
for B2B and educational platforms. Strong background in user research, usability testing, and design
systems, with proven ability to translate complex requirements into intuitive user experiences.
Experienced in collaborating with developers and product teams to deliver scalable, business-driven
solutions.

WORK EXPERIENCE

UX/UI Designer
Freelancer
Nov 2024 - Present

- Designed end-to-end UX/UI solutions for web-based platforms, including dashboards, portals, and internal tools.
- Conducted user research, usability testing, and iterative design improvements.
- Delivered wireframes, prototypes, and design systems.
- Collaborated with developers to ensure design feasibility and smooth handoff.

UX/UI Designer | Product Designer
CTS
Dec 2021 – Aug 2024

- Collaborated with developers to implement prototypes in HTML/CSS/JS, reducing delivery time by 15%
- Designed and delivered 15+ responsive web/mobile interfaces, improving usability scores by 30%
- Conducted user research and usability testing to optimize workflows and improve satisfaction.
- Conducted user research and usability testing with 50+ participants to identify design problems and improve workflows.
- Created design systems and reusable components that increased design consistency across 2+ client projects.
- Partnered with product managers to translate requirements into user flows, wireframes, and prototypes for B2B SaaS applications

Private Academic tutor
Remote
Sep 2020 - Feb 2021

- SQL queries and SQL database software

Software Engineering
e& UAE
Jun 2020 - Aug 2020

- SQL queries and SQL database software

CERTIFICATIONS

Using AI in the UX Design Process
linkedin certification

Figma Pro Pt. 2: Interactions, Prototyping & UI Motion
Coursera

Figma Pro Pt. 1: Auto Layouts, Grids & Components
Coursera

Figma UI UX Design Essentials Pt.1: Tools & Foundations
Coursera

Completion Certificate for Foundations of User Experience (UX) Design
Coursera

SKILLS

- Prompt engineering
- User journey
- Wireframing & User research
- high-fidelity Prototyping
- Component-Based Design
- Information Architecture
- Critical thinking
- Visual Hierarchy & Layouts
- Usability Testing & Empathy

DESIGN TOOLS

- Figma & Adobe XD
- Adobe Creative Cloud
- Powerpoint
- WordPress(Elementor)
- Firefly & Claude code
- Nano Banana Pro AI
- AI designing & generating Tools

FAMILIAR WITH

- Content Creation
- HTML & CSS& JavaScript
- REACT
- Bootstrap
- JQUERY & MySQL
- JSON & MongoDB

IMPORTANT PROJECTS

Dubai Police Academy

- Redesigned a university's institutional website to create a more modern, intuitive, and engaging digital experience for prospective students, current students, faculty, and visitors.
- The redesign focused on improving information architecture, navigation, content discoverability, and visual presentation of academic programs, admissions, campus life, and university information.

BilArabi (arabic curriculum website)

- Designed an Arabic-language learning platform for teachers and students.
- Defined personas, user journeys, and information architecture.
- **Improved** student engagement by **50%** and increased learning efficiency **by 10%** through gamified UX and accessibility-focused design.

KDHA School Portal

- Designed multi-persona portals (students, parents, admins) to digitize school operations.
- **Reduced** processing time **from 3 hours to 15 minutes,** increasing productivity by **60%.**
- Simplified complex workflows such as payments, attendance, and reporting.

KDHA Parent Portal

- Designed a parent-facing portal to monitor students' academic progress, manage payments, and submit absence requests.
- Defined user personas, key workflows, and information architecture to simplify complex school processes.
- Reduced parent time spent on school-related tasks from **5 hours of travel and meetings to under 10 minutes,** significantly improving convenience and engagement.

American University of Dubai (University portal)

- Designed a multi-role portal for students, professors, and administrators.
- Improved internal communication and reporting efficiency, reducing wasted time by **20%**.

KDHA PD Calendar

- Designed a role-based calendar system for students, parents, and public users.
- Created clear navigation and event discovery flows to improve usability and visibility of events.
- Reduced event management and follow-up time from **3 hours to 15 minutes** and increased event attendance by **20%.**

NRI (recruitment system)

- Designed an internal system that reduced monthly reporting time from **3 hours to 10 minutes.**
- Improved team productivity by **80%** through streamlined workflows and dashboards.
